

Write you are!

Jan Rose

Handwriting Analyst for Zoom Events

No two people handwrite in exactly the same way! That's why your handwriting is a window to your personality. Write a sentence. Check out the loops, curves and slant! Ever wonder what they mean? Leave the interpretation up to Jan Rose.

- Each guest at your virtual event creates a handwriting sample and signs it.
- Taking turns, each holds their signature up to their camera.
- Jan reveals how their personality is reflected in their penmanship.

The experience is fun, interactive and filled with surprises!

Jan holds a Bachelor of Arts in Communications and Psychology. She's a member of the American Association of Handwriting Analysts. She appears at trade shows, colleges, private parties and corporate events.

Invite Jan Rose to your next virtual event. You'll never look at your handwriting the same way again!
